INTRODUCTION

I am very interested in Pharmaceutical Science because of its scientificness and economicness. As a pharmacist, I have ability to well take care of my health and other's. In order to be recognized as a qualified pharmacist, I always strive to get some certain achievements in this field. Therefore, I desire to have a suitable job in which I can extend my strength and potential. And I will devote myself to development and benefit of the employer. In further future, my effort will cause my promotions. Now, I dedicate all my time for the career. I am confident that I am an effective worker and a competitive candidate.
