Apply position : Product Specialist (ETC)

As a new graduate, I would love to seek a job related to both pharmaceutical major and field marketing. Therefore, a Product Specialist is right for me.

Honestly, I recognize myself as a sociable person. I also have a lot of ambitious, I never give up attitude at work. Besides that, I can catch up with the latest trend of the concepts as well as my favourite field in a very short time and apply to practical usage.

Furthermore, I really want to broaden my horizon by accumulating knowledge and hands-on experience from predecessors, colleagues and real situation. Then, I could be able to apply all that I've learned to not only enhance the quality of people's lives but also improve the profit of the Company.

Please contact me for an interview either by phone or by email to further discuss my qualifications. I look forward to meeting you and thank you for your consideration.

Sincerely,

Tuan Ngoc
