OBJECTIVE

- Growing with a company where I can continue to learn, improved my skills and take on additional responsibilities, and contribute as much value as I can. In addition, I want to make a valuable contribution to the success and sustainable development of the company.
- In ten years, I would like to get a higher position and become the important person to take beneficial decision for the company. I will do my best as I can to become a successful person in professional life.

EDUCATION

2012 - 2017

BACH KHOA UNIVERSITY

Department: Chemical Engineering

Major: Organic Chemistry

Graduating with honors, GPA: 8.19/10

Social activities: Green Summer Volunteer Campaign, Spring Volunteer Campaign, National University Entrance Exam Support Campaign,...

EXPERIENCE

Present

TUTOR

Tutoring in subjects: math, physics, chemistry in grades 10, 11, 12

2017

STUDENT

[Organic Chemistry Laboratory \(02/2016 – 01/2017\)](#)

Thesis: Researching extraction of berberine from *Coscinium fenestratum* (Gaertn.) Colebr.

- ✓ Planning the schedule by myself, searching and reading scientific materials
- ✓ Carrying out many experiments to optimize the extraction process
- ✓ Using modern analytical machines: HPLC, UV/VIS, pH

INTERN

[Delta Cropcare Joint Stock Company \(06/2016 – 07/2016\)](#)

- ✓ Studying on pesticides and their formulations
- ✓ Studying the process and equipment of manufacturing pesticides

2015

INTERN

[Domesco medical import export joint stock corporation \(07/2015 – 08/2015\)](#)

- ✓ Learning about pharmaceutical drugs and their composition
- ✓ Studying the operation of a pharmaceutical production line
- ✓ Focusing on an equipment which had been studied in university
- ✓ Leading an internship team including ten students

REWARDS

- ✓ Scholarship of VNSF Fund 2016
- ✓ Achieving the good comprehensive student 2014 – 2015
- ✓ Scholarship of Nguyen Truong To Fund 2013
